DETAILED ACTION

Allowable Subject Matter

Claims 2-5 and 17-31 are allowed.

The following is an examiner's statement of reasons for allowance:

As to claims 22-24, the Applicant has amended the claims to recite that the open link is shiftable between an unlocked position and a locked position independent of rotation of the inside lever. The closest prior art of record was Mitsui US5642636; however, Mitsui fails to disclose or suggest that the open link is shiftable between an unlocked position and a locked position independent of rotation of the inside lever. In fact, Mitsui discloses that the open link is shiftable between an unlocked position and locked position only by rotation of the inside lever. The prior art of record fails to teach a modification to Mitsui that would render the claims obvious, and so claims 22-24 and all claims depending therefrom are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
